

Product : Uni-Clear

. . .Efficient Liquid Probiotic

Key Benefits :

- UNI-CLEAR reduces toxic gases (like ammonia/nitrite/H S) build-up in the pond.
- UNI-CLEAR plays a major role in water purification by organic matter degradation(sludge).
- UNI-CLEAR promotes growth of beneficial phytoplankton and stabilizes the bloom and pH.
- UNI-CLEAR suppresses the growth of pathogenic bacteria, especially vibrio in the pond.
- UNI-CLEAR is effective in a wide range of pH and salinity.
- UNI-CLEAR acts as a feed supplement by promoting the growth of healthy phyto / zoo plankton growth.

Description :	Light to brown color liquid.
Composition :	Rhodococcus spp.
Potency :	4×10^9 cfu / ml
Dosage :	2 – 3 Liters / acre in one metre water depth.
Storage & Handling :	Do not freeze. Optimum temperature for storage in 35 C or below. Avoid direct sunlight.
Shelf Life :	Best when used within 1 year of manufacturing date.
Presentation :	5 Liters & 20 Liters
