

Product : Sporich Plus – Water Soluble**Key Benefits :**

- Produces lactic acid and acidic pH is created in the intestine.
- Competitive inhibition and exclusion of harmful pathogens.
- Good source of B-vitamins, certain digestive enzymes - Amylase, Protease and Lipase for optimum digestion and absorption of nutrients of feed.
- Improves Feed Conversion ratio. Due to better enzyme activity weight gain in layer chicks and in broilers is achieved.
- Improved resistance to diseases. Minimizes stress due to various kinds: De-beaking, Vaccination and Summer stress.
- Reduces the incidence of early chick mortality (ECM).

Description :	A grayish white to brown powder with characteristic odor
Composition :	Lactobacillus sporogenes, Bacillus subtilis, Saccharomyces boulardii
Potency :	> 4.5 x 10 Per gm
Dosage :	250-500 gm / 5000 birds.
Storage & Handling :	Do not freeze. Optimum temperature for storage in 35°C or below. Avoid direct sunlight.
Shelf Life :	Best when used within 2 years of manufacturing date.
Presentation :	Powder - 1 kg
